

Designer Beadcrete® is a revolutionary, patented pool interior finish for all types of swimming pools, from residential to resort. Made from colourfast mineral quartz, inorganic oxides and glass bead spheres to create a reflective mirror underneath the water.

Designer Beadcrete® delivers unmatched pool clarity with a customisable colour range that gives you ultimate design control.

WHY DESIGNER BEADCRETE?

- Maintains pool water clarity through light reflective beads
- Extremely low maintenance
- Resists algae growth and improves pool hygiene
- Rock-solid durable surface with a 20-year life expectancy
- Smooth anti-slip surface for improved pool safety
- Suitable for new pools and renovations
- A colour range offering ultimate design control
- Durability
- Shorter installation timeframe (compared to tiling)
- Ideal for all types of water features, including spas, ponds, and more
- Perfect for rendering concrete

Designer Beadcrete® was developed and patented in Australia and revolutionised pool interior choice for customers. Designer Beadcrete® is distributed to pool builders and applicators, and direct to customers on request.
